

Transform your pool into a therapeutic oasis

## How to start up your Vitale Mineral Salt Pool oasis.

When adding Vitale Mineral Salts to the pool water for either starting up a new pool, converting an existing salt pool into a Mineral Oasis, or topping up the mineral levels, there are a few steps that you will need to follow to get the optimum experience from your Vitale Mineral Salts pool.

1. Test and balance all parameters of the pool water to the correct levels before adding Vitale Mineral Salts.
  - Free Available chlorine - between 1.5 and 3.0ppm
  - pH - between 7.2 and 7.6
  - Total Alkalinity 100-140ppm
2. Add the recommended amount of Vitale Mineral Salts into the pool (Distributing evenly around, so as not to clump in one spot) and sweep in with a pool broom if required to speed up dissolving rates.
3. Run the filtration system for a minimum of 8 hours (with the chlorinator turned off) to allow the Vitale Mineral Salts to be completely distributed throughout the pool water.

Transform your pool into a therapeutic oasis

## For Starting up a new pool with Vitale Mineral Salts

Follow the dosage chart below for the correct Quantities of Mineral Vitale to be added..

Salt Chlorinator Range	1000 Salinity ppm						
Pool Size (L)	10,000	20,000	30,000	40,000	50,000	80,000	100,000
ADD Mineral Vitale (kg)	20	25	40	50	65	100	130

Salt Chlorinator Range	2000 Salinity ppm						
Pool Size (L)	10,000	20,000	30,000	40,000	50,000	80,000	100,000
ADD Mineral Vitale (kg)	25	50	80	100	130	200	260

Salt Chlorinator Range	3000 Salinity ppm						
Pool Size (L)	10,000	20,000	30,000	40,000	50,000	80,000	100,000
ADD Mineral Vitale (kg)	40	80	120	160	200	320	400

Salt Chlorinator Range	4000 Salinity ppm						
Pool Size (L)	10,000	20,000	30,000	40,000	50,000	80,000	100,000
ADD Mineral Vitale (kg)	50	100	160	200	260	420	520

Salt Chlorinator Range	5000 Salinity ppm						
Pool Size (L)	10,000	20,000	30,000	40,000	50,000	80,000	100,000
ADD Mineral Vitale (kg)	65	130	200	260	320	520	640

Salt Chlorinator Range	5500 Salinity ppm						
Pool Size (L)	10,000	20,000	30,000	40,000	50,000	80,000	100,000
ADD Mineral Vitale (kg)	70	140	220	280	360	560	700

Salt Chlorinator Range	6000 Salinity ppm						
Pool Size (L)	10,000	20,000	30,000	40,000	50,000	80,000	100,000
ADD Mineral Vitale (kg)	80	160	240	320	390	620	780

- Note: The Above dosage rates are a guide only and a complete water analysis should be conducted after the addition of Vitale Mineral Salts.
- Quantities have been rounded to simplify calculations for the user.
