# swimkleen NAV

## Features:

- Patented Anti-Blocking Design**  
 V-Flex™ technology virtually eliminates blockages.
- Ideal For Use With Variable Speed Pumps**  
 Patented V-Flex™ technology, wide vacuum inlet and unique wing design prevents blockages while delivering maximum suction power, even at low flow.
- Patented SmartDrive® Steering**  
 Adaptive steering system improves maneuverability, speed and efficiency providing thorough, self-sufficient coverage of the pool floor, walls and coves.
- Silent Operation**  
 No pulsating hoses or noisy components.
- Eliminates Hose Tangling**  
 Due to the adaptive steering system.
- Easy To Use**  
 Connects to a skimmer or suction port in less than 10 minutes.
- Easy To Maintain**  
 Fewer moving parts makes this cleaner easy to service and maintain.

## Features V-Flex™ Technology

Unique design eliminates clogs without sacrificing energy efficiency.

Equipped with patented V-Flex™ variable vane turbine technology, Navigator V-Flex™ easily picks up larger dirt and debris while virtually eliminating blockages. Its versatile design maximises suction power, even at low flow. This makes the cleaner ideal for use with variable-speed pumps. Delivers energy savings.

## Patented SmartDrive® Steering System

Intelligent technology for more complete coverage.

Patented SmartDrive® programmed steering determines the most efficient cleaning path around any pool for complete, reliable coverage. The improved manoeuvrability virtually eliminates hose tangling. Provides thorough, self-sufficient coverage of the pool floor, walls and coves. Determines most efficient cleaning path.

Swimkleen NAV Features	
<b>Pool Coverage*</b>	Pool floor, walls, coves
<b>Hose Length</b>	12m
<b>Pool Size</b>	Up to 6m X 12m or pools with deep ends
<b>Pool Surface**</b>	Concrete, Vinyl, Fiberglass, Pebble and Tile
<b>Turbine Type</b>	Patented V-Flex™ variable vane technology
<b>Drive Sequence</b>	SmartDrive® programmed steering system
<b>Traction System</b>	Pod and shoes

\* Wall climbing capability and pool coverage may be affected by specific pool shapes and surfaces. The cleaner may not climb the wall under certain conditions.  
 \*\* Different shoe types available for different pool surfaces.
